Evidence-Based Health Policy Project to host Opioid Research Roundtable

Monday, February 13th – Press Release

Madison – The Evidence-Based Health Policy Project (EBHPP) will host a briefing regarding opioid use in Wisconsin. The event will be held at the Wisconsin State Capitol on March 1st, 11:00am-12:15pm, Room TBD. [Advance registration](#) is recommended.

The event, *Addressing Opioid Use: What's New and Emerging in Wisconsin?*, will feature four speakers presenting on ongoing research and evidence-based programming across the state.

- Dr. Aleksandra Zgierska of the UW Department of Family Medicine and Community Health and Captain Cory Nelson of the Madison Police Department will discuss the [Madison Addiction Recovery Initiative \(MARI\)](#). Dr. Zgierska will also present on [Mind-Body Therapies to Reduce Opioid Reliance](#).
- Dr. Sara Lindberg of the [UW Population Health Institute Evaluation Research Group](#) will present research regarding ongoing evaluations of projects across the state, including recovery schools, treatment courts, and prescriber education initiatives.
- Bri Deyo of the UW Department of Family Medicine and Community Health will present on [Screening in Trauma for Opioid Misuse Prevention \(STOMP\)](#).

The EBHPP is a partnership with the [UW Population Health Institute](#), the [La Follette School of Public Affairs](#), and the [Wisconsin Legislative Council](#). The non-partisan project bridges medicine and health policy, as well as research and practice, to serve the Wisconsin Legislature and other decision-makers. Originally formed in 2002, EBHPP provides public briefings on health topics and aims to connect localized health research with key stakeholders in Wisconsin.

Contact Program Director Sam Austin, svaustin@wisc.edu or 608-265-4851 with media inquiries.
