Health Insurance in Wisconsin and Federal Health Care Changes

10:00 a.m.—12:00 p.m.

Wisconsin State Capitol, Senate Parlor

The health insurance market in Wisconsin continues to be one of the most competitive in the nation. Eighteen plans provide coverage to individuals, families, employers and beneficiaries of Medicaid and Medicare. As Wisconsin policymakers examine the impact of the forthcoming federal health care changes, it is important that all reforms are considered with the goal of sustaining, improving and strengthening Wisconsin's health insurance market.

To navigate through these changes, the Alliance of Health Insurers seeks to be a resource. This health policy forum features national and state experts who will provide insight into the federal changes, their potential impact on Wisconsin's health insurance market and Medicaid program, as well as the current role of the state.
